Montreal, Canada - FOR IMMEDIATE RELEASE

Montreal - April 19th, 2016 - Montreal Based Pixtolab today announces the brand new app Mix on Pix for iPhone/iPad as the most versatile app to add anything on pictures: texts, annotations, watermarks, photos, logos and more. Mix on Pix follows in the steps of the popular A+ Signature app, with major improvements in features and customization.

Mix on Pix targets everyone who takes and edits photos, from the professional photographer to the casual user doing social posts.

With Mix on Pix, it is now easier than ever to create an outstanding social post with pictures and texts. Pixtolab calls a Picture/Text post a Pixto.

"Mix on Pix has been created to be at the intersections of Photography, Typography, Creativity, Productivity and Mobility." said Francois Robert, President of Pixtolab.

Sometimes, more is more.

In general, users want ease of use. But as the Computing Pioneer Alan Kay once said: "Simple things should be simple. Complex things should be possible".

"With the ubiquity of bigger iPhones and iPads, a new generation of users want power on top of ease of use. These were the guidelines for the design of Mix on Pix, which contains a lot more functionalities and customization possibilities than your average Photo App.

Providing all this power while keeping simple things simple was the greatest challenge." said Francois Robert.

Key features:

- Multiple sessions. Work sessions are saved and reopened just like Pages or Word documents.

- Texts, dates, arrows, shapes, writings and drawings on photos.
- Access to a categorized lists of fonts. 477 available fonts. Users can also install their own fonts.
- Texts stands out in an instant with Quick FX.
- Pictures on Picture with an optional pack.
- Finely designed Stock Texts and Stock Art.
- Every item can be customized or grouped to give unsurpassed control.
- Saving and sharing at full resolution.

Designed for iOS 9

- 3D Touch to quickly create a new session or open the last session.
- Slide Over and Split View on iPad and iPad Pro.
- Search in Spotlight using the Session name.
- Devices can be used for a longer time in Low Power Mode thanks to adaptive display effects.

Pricing and Availability:

For a limited time, Mix on Pix is offered at the introductory price of \$1.99 USD (or an equivalent amount in other currencies). It is available worldwide through the App Store in the Photo and Video category. Mix on Pix is designed for iPhone and iPad. It requires iOS 9.0 or newer.
